

Supply Chain Solution Ltd UK & Irish Logistics Solutions

We specialize in the provision and supply of logistical excellence to Global Exporters / distributors, whose products are distributed throughout the UK & Ireland.

Whether your Goods arrive by Air, Sea or Road, we have all angles of the Logistics chains covered. We provide everything expected in supplying your customer with a one stop shop, which include:

- Customs clearance
- Inland Haulage
- Destuffing / Offloading
- Pick and Pack
- Daily Distribution
- Groupage & Full Load Services

We offer key advantages over our competitors, as we provide both ambient and temperature controlled warehousing throughout the UK & Ireland.

Our current logistics contracts involve all the major supermarket chains, Cash & Carry Wholesalers etc.

We provide Groupage and Full Trailer Load services throughout the UK & Ireland, which includes the transport of temperature controlled foodstuffs. If goods are ever rejected, we have a local warehousing resource at hand.

Warehousing Facilities

Our UK warehouses are located throughout the UK, but are generally sited near to the UK's Major Supermarket RDC's

In Ireland our warehousing facilities are based in Northern Ireland, Cork, Kildare, Mullingar & Tipperary.

We believe we have positioned ourselves to provide advantages to the three groups involved in the process of making the “Supply Chain” work:

How it works: Supplier-Logistics-Supermarket ,etc

- Liaison with production / dispatch office
- Delivery to UK or Irish delivery point
- If problem with delivery inform and advise problem
- Divert any problem stock to local warehouse
- Rebuild, Restack, Shrink-wrap damaged stock
- Inform customer goods are ready and re-deliver

Advantages to Manufacturer / Distributor

- Claused notes faxed / emailed to customer
- Problem dealt with locally
- Minimal diversion costs to warehouse
- Nominal rebuild , despatch costs
- No return, rebooking / reworking of damaged stock to manufacturer
- New notes used for delivery
- No return load costs to point of original collection
- Next day delivery to Supermarket (when possible).
Excellent Customer services
- Massive cost savings against returning to original point of collection
- On line proof of delivery (pod)
- Potential free storage of exchange pallets (dependent upon contract).

Advantages to Supermarket Groups etc.

- Improves lead time for re-delivery
- Stock can be called off for local delivery
- No costs to supermarket group
- Local point for sending all reject stock
- Improved turnaround time on offloading bays
- Greater efficiency, cost and time saving.
- EDI (Electronic Data Interchange)
- On line Proof of Delivery (pod)

Advantages to Hauliers

- Quicker turnaround time
- Goods sent to local warehouse
- Frees up trailer for Backload
- All paperwork handled by warehouse
- Advised of collection availability
- Local Haul to supermarket RDC if required
- We undertake local delivery if requested
- Better customer services in dealing with problem onsite
- Online proof of delivery (pod)

Overall Advantages to the Supply Chain

- Minimises delays all around
- Provides a local solution throughout UK & Ireland
- Stirling and Euro Accounts
- Complete restacks available or just one pallet
- Liaison through us to all parties
- Less dead mileage and environmental costs all around
- Provides top up services during peak times

Conclusion

We believe that through innovation and local knowledge, we can not only reduce all round unit costs, but greatly improve the supply chain. This is done quite simply by providing a “National Solution” – Locally.
